

BTL-5110 Laser

1-channel Laser, upgradeable

- On-line encyclopedia with pre-set protocols based on years of medical research
- Save your time: treat large areas by high-powered BTL laser clusters (up to 1800mW)
- Wide choice of BTL laser probes (up to 400mW) for superficial and deep tissue layers
- 2 outputs for simultaneous connection of a red and infrared probe or a probe and laser cluster
- Recommended applications for different medical fields (rehabilitation, dermatology, gynecology, ENT, sports medicine, etc.)

Main Features

- 1-channel LLLT laser with touch screen for easy and comfortable operation
- Large touch screen display
- Protocols for different medical fields (rehabilitation, orthopedics, sports medicine, dentistry, gynecology, dermatology, ENT, pediatrics, general practice)
- User-defined protocols
- Therapeutic encyclopedia
- Built-in patient database
- Unique Modular System™ - option of later unit upgrades
- Identification of accessories and accessories maintenance check
- Color frame option
- Test and identification of connected probes & clusters
- Wide choice of probes: red probes of 685nm wavelength and 30-50mW output power, infrared probes of 830nm wavelength and 50-400mW output power
- Wide range of laser clusters (red, infrared, combined) up to 1800mW output power
- Option of the holder for laser clusters and probes for easy and comfortable laser application
- Choice of optical attachments for ENT, urology, dentistry and gynecology
- PC connection (for SW upgrades)
- Multilingual unit
- BTL Cart (option)
